From TEXT ME! an exhibition of
letters and words in visual art

Creating ongoing visual Journals are an integral part of my expression as an artist. Journal "pages" formatted like a single page of our daily newspaper developed through layering gesso and collaging newsprint into strangely attractive painterly surfaces. It was intriguing how these interventions altered the content of the written word, changing the surface from generic to explicitly personal - denying the original narrative function in both an informative and perplexing way and creating a new space.

Accreditation

This event is an Accredited Group Learning Activity (Section I) as defined by the Maintenance of Certification program of the Royal College of Physicians and Surgeons of Canada for 12.25 credits. This program has also been accredited for up to 12.25 Mainpro-M1 credits. This program has been reviewed and approved by the University of Ottawa, Continuing Professional Development.

Cette activité est une activité de formation collective agréée aux termes de la section I du programme de Maintien du certificat du Collège royal des médecins et chirurgiens du Canada pour 12.25 crédits. Ce programme répond aux critères d'agrément du Collège des médecins de famille du Canada et le [centre de FMC/DPC de l'université] lui accorde jusqu'à 12.25 crédits Mainpro-M1. Ce programme a été révisé et approuvé par le Bureau de Formation professionnelle continue de l'Université d'Ottawa.

Acknowledgments

In addition to our main sponsors, we would like to acknowledge the wonderful support of the following individuals who have contributed substantially to the success of Creating Space IV: Dr. Melissa Forgie, Vice Dean of Undergraduate Medical Education, Pierre-Olivier Auclair, Linda Chenard, & Heather Summers, Undergraduate Medical Education Office, & Joanne Myre, Bureau des affaires francophones, Faculty of Medicine, University of Ottawa. We would also like to thank the Bruyère Research Institute for facilitating the CIHR support for this meeting.

We would like to acknowledge the generous support of this meeting by the following organizations:

Welcome to Creating Space IV!

Your response to our Creating Space IV 'Call for Proposals' was wonderful - we received a record number of exciting abstracts from a wide variety of professions and disciplines, from academics, students and practitioners. Thanks to all the presenters, we have put together a program that we are sure will inform, challenge and stimulate your creative and intellectual energies. Along with our excellent keynote speakers, we have a variety of oral presentations, facilitated posters and workshops that will insure lots of discussion and networking opportunities. You will be able to explore how scholarship in the arts, humanities and social sciences (AHSS) have relevance and meaning for health professional education as well as preparing health professional students for clinical and academic careers. We will deliberate on how AHSS scholarship can contribute to community engagement in health professional education and discuss both the challenges and potential tools to collaborate across the disciplines of AHSS and health professional education. Thank you for coming and sharing your knowledge, experiences and enthusiasm! Let the symposium begin!

Bienvenue à Creating Space IV!

Vos réponses à notre appel de propositions pour l'activité Creating Space IV ont été fantastiques. Nous avons reçu un nombre record de sommaires passionnants envoyés par des universitaires, des étudiants et des praticiens provenant d'une vaste gamme de professions et de disciplines. Grâce à tous nos présentateurs, nous avons préparé un programme qui, nous sommes assurés, saura exciter votre curiosité, vous informer et stimuler votre créativité et votre énergie intellectuelle. En plus des discours-thème, le programme comporte toute une gamme d'exposés oraux, de présentations animées d'affiches, d'ateliers et de présentations d'expériences reliées aux arts. Nous sommes certains que ce programme nourrira les discussions et fournira des occasions de réseautage. Vous pourrez explorer de quelle façon la mission professorale en arts, humanités et sciences sociales (AHSS) est pertinente dans la formation des professionnels de la santé afin de mieux préparer les étudiants et les étudiantes pour une carrière universitaire et clinique. Nous délibérerons de la façon que la mission professorale en AHSS peut contribuer à l'engagement communautaire dans la formation des professionnels de la santé. Nous discuterons également des défis et des outils qui pourraient faciliter la collaboration entre les diverses disciplines de l'AHSS et les programmes d'éducation des professionnels de la santé. Nous vous remercions de venir partager vos connaissances, vos expériences et votre enthousiasme. Que le symposium commence!

Conférenciers principaux

Brian Hodges and AMS Phoenix: Change, Care and Compassion

Brian D. Hodges est professeur à la Faculté de médecine et à la Faculté d'éducation (OISE/UT) de l'Université de Toronto. Il est également titulaire de la chaire de recherche Richard and Elizabeth Currie en enseignement des professions de la santé au Wilson Centre for Research in Education et vice-président de l'éducation du Réseau universitaire de santé, lequel est composé des hôpitaux Toronto General, Toronto Western, Princess Margaret et Toronto Rehabilitation Institute. Il dirige le projet Phoenix de l'AMS (AMS Phoenix Project : A Call to Caring), un projet qui vise à rétablir l'équilibre entre la technologie et la compassion dans les soins de santé. Plusieurs dirigeants et boursiers du Projet Phoenix se joindront au Dr Hodges, notamment Cynthia Whitehead, Michelle Spadoni, Pat Sevean, Mala Joneja, Kerry Boyd et Joyce Zazulak.

Alan Bleakley: The Distribution of Sensibility and the Medical/Health Humanities

Alan est professeur émérite en éducation médicale à l'Université de Plymouth, professeur d'humanités et médecine à l'Université de Falmouth et chercheur invité du Wilson Centre de Toronto. Il s'est forgé une réputation internationale dans les domaines de l'éducation médicale et des humanités en médecine et a de nombreuses publications à son actif, y compris les ouvrages *Medicine, Health and the Arts* (Routledge 2013) et *Patient-Centred Medicine in Transition* (Springer 2014). Il termine présentement un livre en tant qu'auteur unique sur « la réflexion critique en humanités médicales » pour Routledge. L'ouvrage devrait être publié en 2015.

Jeff Nisker: Creating Space for the "Handshake Story" in developing person-centred health professionals & humanity-centred health policies

Jeff Nisker, M.D., Ph. D., FRCS, FCAHS, est professeur d'obstétrique et gynécologie à l'École de médecine et de dentisterie Schulich, en plus d'être chercheur au Children's Health Research Institute de l'Université Western. Il a eu et a encore des bourses des IRSC et de Génome Canada pour faire de la recherche sur l'éthique narrative et les enjeux sociaux, incluant une bourse des IRSC et de Santé Canada pour explorer l'engagement du public par l'entremise du théâtre dans l'élaboration de politiques en science génétique. Il a écrit plus de 160 articles revus par des pairs, des chapitres de livre et sept pièces de théâtre, qui ont été jouées dans cinq pays, pour promouvoir l'humanité et les politiques sur la santé. Une compilation de ses pièces de théâtre vient d'être publiée. Il a édité et coédité la publication de quatre autres livres. Jeff a reçu de nombreux prix en enseignement et en recherche, incluant le prix de l'éducateur de l'année du Conservatoire royal de musique. Il a également été choisi par Peter Gzowski de CBC comme un des 13 « Meilleurs esprits de notre temps ».

**Our Creating Space Symposium: Where have we been?
Where are we going?**

Now held annually, “Creating Space” was founded by Allan Peterkin, MD (UToronto) and Pamela Brett-MacLean, PhD (UAlberta) after they attended the Association of Medical Humanities (AMH), UK meeting held in Truro, Cornwall in 2010. First hosted at Mount Sinai Hospital in Toronto in 2011, Creating Space was structured to coincide with the Social Sciences Perspectives on Health Professions Education Symposium meeting that was held by the Wilson Centre (UToronto), and the Canadian Conference on Medical Education.

Feedback we received from those who attended this first conference confirmed that the time for our own annual meeting in Canada had arrived!

Associated with the Arts, Humanities and Social Sciences in Medicine (AHSSM) Educational Interest Group (sponsored by the Canadian Association for Medical Education), Creating Space is currently a symposium that is organized by medical schools involved in hosting, or associated with Canadian Conference on Medical Education meeting, allowing for a regional focus and update on the health humanities, arts-based teaching and social sciences scholarship across Canada.

Creating Space continues to grow as an inviting venue for artists, educators, humanities scholars, social scientists and health professionals and students from ALL disciplines who are interested in exploring the use and contributions of the arts, humanities and social sciences (AHSS) in health professions education in Canada. Local health humanities, arts and social sciences groups and their academic partners showcase local initiatives, and engage in national and international conversations. Very successful meetings were also held in Banff in 2012, and Quebec City in 2013. Since the beginning, these meetings have attracted participants from across Canada as well as internationally. (Past symposium programmes can be accessed at <http://www.medhealthhumanities.ca/CS-PastFutureMeetings.html>).

We are looking forward to the upcoming meeting that will take place in Ottawa in 2014! Do plan on joining us!

Also, please do take time to view the “White Coat, Warm Art” exhibit, founded by Carol Ann Courneya in 2010, which is featured annually at the Canadian Conference on Medical Education. This highly impressive display of art by students, faculty and other health practitioners involved in health professions education attests to the creativity and commitment to effective, compassionate care that is exists in our many schools and educational programs.

Symposium Creating Space : D'où venons-nous? Où allons-nous?

Maintenant offert annuellement, le symposium Creating Space a été instauré par Allan Peterkin, M.D. (UToronto) et Pamela Brett-MacLean, Ph. D. (UAlberta) après qu'ils eurent assisté, en 2010, à une réunion de l'Association of Medical Humanities (AMH), à Truro, Cornwall, Royaume-Uni. Tenu pour la première fois en 2011 à l'Hôpital Mount Sinai de Toronto, Creating Space a été structuré pour coïncider avec le symposium Perspectives des sciences sociales sur l'éducation des professionnels de la santé, tenu au Centre Wilson de l'Université de Toronto, et la Conférence canadienne sur l'éducation médicale.

Les commentaires reçus des participants après cette première conférence ont confirmé que le temps était venu d'organiser notre propre réunion annuelle canadienne!

Associé au groupe d'intérêt Arts et sciences humaines et sociales en médecine (ASHSM) parrainé par l'Association canadienne pour l'éducation médicale (ACÉM), Creating Space est actuellement un symposium mis sur pied par les écoles de médecine qui participent à l'organisation de la Conférence canadienne pour l'éducation médicale ou qui sont associées à cette activité. Cela permet de donner une orientation régionale en plus de faire un compte rendu des progrès accomplis dans les humanités médicales, l'enseignement axé sur les arts et l'art professoral en sciences sociales partout au Canada. Creating Space continue de grandir et d'offrir un lieu invitant de rencontres aux artistes, éducateurs, universitaires, spécialistes en sciences sociales, professionnels de la santé et étudiants de toutes les disciplines qui désirent explorer l'utilisation des arts, des humanités et des sciences sociales et la contribution de ces disciplines dans l'éducation des professionnels de la santé au Canada. Des groupes locaux des humanités de la santé, des arts et des sciences sociales et leurs partenaires universitaires présentent des initiatives locales et participent à des discussions nationales et internationales. Des réunions très réussies ont aussi été tenues à Banff en 2012 et à Québec en 2013. Depuis le début, ces réunions ont attiré des participants de partout au Canada, de même que d'autres pays. (Vous pouvez consulter les programmes des symposiums antérieurs à <http://www.medhealthhumanities.ca/CS-PastFutureMeetings.html>.)

Nous avons hâte à la prochaine réunion qui aura lieu à Ottawa en 2014! Joignez-vous à nous pour cette occasion.

Nous espérons aussi que vous prendrez le temps de visiter l'exposition « Artistes en blouse blanche » créée par Carol Ann Courneya en 2010. Cette exposition est présentée annuellement dans le cadre de la Conférence canadienne pour l'éducation médicale. Cette exposition très impressionnante d'œuvres d'art créées par des étudiants, des membres de corps professoraux et d'autres praticiens de la santé qui participent à l'éducation des professionnels de la santé témoigne de la créativité et de l'engagement envers la prestation de soins bienveillants et efficaces que l'on retrouve dans nos nombreux programmes éducatifs.
